

Game Management Areas - East Range

Fort Huachuca, Arizona

EAST RANGE INFORMATION: Hunters will enter the Game Management Areas (A, B, C, D, E, F, Z) through the HWY 90 underpass just north of the East Gate. Area F1 and F2 can only be hunted with shotgun, muzzleloader, or archery. Area Z is the artillery impact area; therefore, use extreme caution if you cross this area. Any remote test site in use has an automatic 1/4 mile safety zone around it. Hunters will also observe a 1/4 mile safety zone around any building, permanent test site, military or civilian personnel, houses near the post boundary, etc. In addition, there is a 100 yard wide safety zone on the east side of highway 90. Weapons will be unloaded during transportation and during the time a hunter is in the safety zone or closed zones.

All post hunters must possess a post-hunting permit and be signed-out each time they hunt.

To report wildlife law violations observed Off-Post call AGFD 1-800-352-0700
